Invitation Grand Opening Exposition: Benjamin Wever

My name is **Benjamin Wever**. By the age of 3, I was diagnosed with **Autism**. For this reason, my family and I have moved to the Netherlands. It was there where I discovered my **passion for art** and I was given the opportunity to develop myself in this area. My dream is to do art as a full time job and to one day become recognized as an artist. I am already on my way to fulfilling my dream and would like to invite you all to "**XtravaganZorex**". During this exposition, my collection of paintings drawn with my favorite painting material, i.e. colored pencils, will be displayed.
